

"Your Steps Are Ordered Of GOD!"

Here is a chorus I learned in the 80's: "Rejoice, for the steps of a righteous person are ordered of GOD." And the bridge goes like this: "In the time of trouble, GOD will Uphold you, GOD will Preserve you, GOD will Sustain you...in the time of trouble GOD will lift you up, so Rejoice, your steps are ordered of GOD!" The definitions of Uphold, Preserve, Sustain and Lift up are from Noah Webster (1758-1843) Dictionary:

UPHOLD – To lift on high; to elevate; to support in any state and to continue to maintain; to keep from being lost! GOD is lifting you up and elevating you to a position of high regard!

PRESERVE – To keep you from injury or destruction; to defend from evil; to save from decay; to keep you in a sound state; "GOD has given you a Power and Love and a Sound Mind!" (II Timothy 1:7)

SUSTAIN – To support as a foundation; to keep from falling; to maintain; to keep Alive; to support in any condition by giving aid to; to bear – GOD will lift you up! Think of JESUS as the Cornerstone, your Rock, your Foundation – Hallelujah! In the time of trouble...

GOD WILL LIFT YOU UP – Raise you up in dignity – no more shame; so rejoice, your steps are ordered of GOD; He delights in you, and more than that...in the time of trouble GOD will uphold you (lift you up and elevate you – exalt you when you humble yourself...and HE keeps you from getting lost!) Psalm 54:4 – "Behold, GOD is my Helper; He is the Sustainer of my soul, the One Who upholds my life." "So rejoice, your steps are ordered of GOD!"

Love you, Dad!

Father, we love YOU!

Be the BRAVE For Someone's Breakthrough!

Article by Mark Batterson - "Win the Day"

Do you believe you can be an influence to those around you? Joshua Halderman was a great influence on his grandson Elon Musk, who has taken steps to influence millions of people to seek free speech for everyone.

Here is an excerpt from Mark Batterson's book "Win The Day":
"Joshua Haldeman, who grew up on the prairies of Saskatchewan, was a cowboy and organized rodeos as well as building up a 5,000-acre farm from scratch. And then....He lost it all! So he turned his attention to flying, and in 1950, Haldeman uprooted his family and moved halfway around the world to South Africa. He owned a single-engine plane which he disassembled and put in crates for the long trip. In that plane a few years later, Joshua and Winnifred, his wife, embarked on a 30,000 mile-round trip from Africa to Australia and back. They are believed to be the only private pilots to have ever made that flight in a single-engine airplane. As a comparison, Charles Lindbergh's transatlantic flight in 1927 was only 3,600 miles; twenty-seven years later, the Haldemans flew more than eight times farther than Lindbergh..

Few people have heard of Joshua and Winnifred Haldeman, but you're hearing of their grandson, Elon Musk (by the way 'Elon' is found in the Bible - Genesis 26 and Judges 12-a judge in Israel). Elon Musk's entrepreneurial exploits are well documented; he has turned the automotive and aerospace industries upside-down, ruffling a few feathers along the way. At SpaceX headquarters, there are two giant posters of Mars. One shows a cold, barren planet...the other looks a lot like Earth. The second poster represents Musk's life purpose – colonizing Mars. What a fantastic vision that most people don't ever think about; they're just trying to make a living so they can have a great retirement and go places...but not to Mars!

How does someone even conceptualize colonizing a planet, in the non-science-fiction sense? Who dreams that kind of interplanetary dream? Let's just say that the apple didn't fall far from Joshua Haldeman's tree! Dreams are not conceived in a vacuum. For better or for worse, each of us is born into someone else's story. 'Throughout his childhood,' noted one of Musk's biographers, 'Elon heard many stories about his grandfather's exploits and sat through countless slide shows that documented their travels in that little single-engine plane. Those stories were the seedbed of Musk's imagination... those stories were the shoulders he stood on.'

Joshua Haldeman's signature story became a subplot in his grandson's story. I don't think Haldeman had any idea that his transcontinental flight would have an intergalactic ripple effect. But every move you make, every risk you take, sets the stage for someone else. Your 'Brave' is someone else's Breakthrough. We think 'Right here, right now'...but GOD is thinking nations and generations. We think that what GOD does for us is for us, but it's never just for us. It's always for the 3rd and 4th generations. When we win the day, in our own unique way, we enable future generations to dream a little bigger and think a little longer. Once you've flown 30,000 miles in a single-engine plane, colonizing Mars isn't out of the question!"

Just think, if those brave prophets and disciples wouldn't have taken the time to write those 66 books that we call a Bible...where would we be? Praise GOD for their bravery and perseverance! Be the BRAVE for someone, my Friend, and you will have a great reward here and in heaven!

"GOD has given man the earth and put us in charge!"
(Ps. 115:16 Passion)

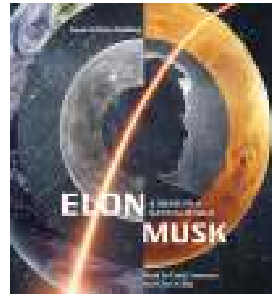

Suck it up and Be the BRAVE!

Make America Great Again!

He's turned Twitter upside down!

Elon Musk is a name that has shot up into the stratosphere! For being the richest man in the world he is relatively young at the age of 50. So, what are the Elon Musk traits you can use to improve your life skills?

Trait #1: Turn Negatives into Positives - Musk had a very, very difficult childhood. But he hasn't let his past experiences inhibit his future success. He's funneled the negative energy from his childhood into the positive outcomes he has today.

Trait #2: Embrace Failure - Not long ago, Musk said, "There's a silly notion that failure is not an option at NASA. Failure is an option here; if things are not failing, you are not innovating enough." Musk understands that you learn more from your failures than you do from your successes.

Trait #3: Glass Half Full Mentality - Musk once said, "I'd rather be optimistic and wrong, than pessimistic and right." You have two choices in life - to see the world as a pessimist, or to see the world as an optimist. Musk has chosen optimism; you should, too: **"Let not your heart be troubled, neither let it be afraid!"** (John 14:27)

Trait #4: Embrace Your Differences - If you take a deep dive into Musk and his mental framework, you eventually realize one thing ... this guy is different. But rather than be held back by his differences, Musk has embraced them. That option is available to you, too, if you choose...embrace the wonderful, different that you are!

Trait #5: He's Paid for His Brain, not His Hands - Some people get paid for their brains, and others get paid for their hands. If you can get paid for what you know, you can scale your influence by hiring others to do the hard stuff. **"Let patience have its perfect result that you may be complete, lacking in nothing."** (James 1:4)

Trait #6: Keep Your Balance - Musk is a unique character who seems to be energized by work. But not all of us are that way. You need to re-charge your batteries. So, avoid being a workaholic; instead, give yourself some balance, perspective, rest and rejuvenation. **"Be still and rest...wait patiently for the LORD."** (Psalm 37:7)

WATCH, LOOK AND LISTEN - GLOBAL WARNING INSTEAD OF GLOBAL WARMING!

The Footstool World!

By Jonathan Cahn

The Footstool World - "Book of Mysteries" Page 20

The teacher took me into his study and motioned to sit down in his chair; in front of the chair was a cushioned stool. "Relax," he said, "put your feet up." So I did...he was quiet; finally I broke the silence. "...and what's today's mystery?" I asked. "That," he said. "That," he said again, pointing to the stool. "The footstool?" "Yes, the footstool; and within it lies a cosmic revelation." "A cosmic revelation? I never would have thought." "Cosmic enough to be spoken of by GOD: **'Heaven is My throne,'** He said, **'and the earth is My footstool.'** What do you think it means?" "The earth is the place where GOD puts His feet?" I queried. "That's exactly right; heaven is His throne. In other words, heaven is GOD's dwelling place, the center of His Presence, and where He rests His weight. And the word for weight in Hebrew is 'kavode'; kavode also means Glory = Heaven in which rests GOD's weight and glory." "And what about the earth?" "The earth is not His throne...so it can't bear the imprint of His feet, but never His full weight. And what does this reveal?"

You live in a footstool world. The earth is just a footstool when it comes to the things of GOD. It means it isn't the place on which you can rest all your weight or your well-being. Its possessions are only footstool possessions. Its issues are only footstool issues. Its problems are only footstool problems. And its glory is only a footstool glory. You don't sit on a footstool; you just place your feet on top of it...on top of its problems, on top of its issues, on top of its glories...you rest your feet on it...lightly. That's the way one must live in a footstool world." "Then where DO you rest your weight?" "In the heavenlies," the teacher said. "But that's another mystery; for now, enjoy the footstool!" Today, see the world and everything in it in a New Way... as the footstool world, with only footstool issues, and live accordingly.

Isaiah 66:1, Thus says the LORD, **"Heaven is My throne, and the earth is My footstool. Where then is a house you could build for Me? And where is a place that I may rest? My Hands made these things; they and everything in them are Mine, so they belong to Me!"**

WWII B-17 "All American" Crew!

Story submitted by Mark Trevithick

In 1943 a mid-air collision on February 1, 1943, between a B-17 and a German fighter over the Tunis dock area, became the subject of one of the most famous photographs of WW II. An enemy fighter attacking a 97th Bomb Group formation went out of control, probably with a wounded pilot, then continued its crashing descent into the rear of the fuselage of a Flying Fortress named "All American", which was piloted by Lt. Kendrick R. Bragg, of the 414th Bomb Squadron and his courageous crew. When it struck, the fighter broke apart, but left some pieces in the B-17. The left horizontal stabilizer of the Fortress and left elevator were completely torn away. The two right engines were out and one on the left had a serious oil pump leak. The vertical fin and the rudder had been damaged. The fuselage had been cut almost completely through, connected only at two small parts of the frame. And the radios, electrical and oxygen systems were damaged. There was also a hole in the top that was over 16 feet long and 4 feet wide at its widest; the split in the fuselage went all the way to the top gunner's turret. The tail actually bounced and swayed in the wind and twisted when the plane turned. And all the control cables were severed, except one single elevator cable still worked, and the aircraft miraculously still flew!

The tail gunner was trapped because there was no floor connecting the tail to the rest of the plane. The waist and tail gunners used parts of the German fighter and their own parachute harnesses in an attempt to keep the tail from ripping off and the two sides of the fuselage from splitting apart. While the crew was trying to keep the

bombs over the target, the pilot continued on his bomb run and released the bombs. The tail gunner had to shoot in short bursts because the recoil was actually causing the plane to turn. Allied P-51 fighters intercepted the "All American" as it crossed over the Channel and took one of the pictures shown.

Because they had used 5 parachutes, Lt. Bragg made the decision that if all of them could not bail out safely, then he would stay with the plane to land it. Two hours after being hit, they landed at the runway...Safely!

When the ambulance pulled alongside, it was waved off because not a single member of the crew had been injured. That was the bravery of the soldiers who won the war on two hellish fronts.

Home Of Refuge

Saving the Lost...Loving the Unlovable

"The only constant in life is change". This is true for the Home of Refuge in Peru. For the first time in two years, learning for the children has now gone from virtual to "in class". That means we have to purchase new school uniforms and shoes, as well as supplies for the children. They are growing up and out of their old uniforms. We also have medical bills for several of the elderly, who have not had good nutrition on the streets and now they are suffering for that neglect for so many years. Francisca Lopez Human, on the right, one the our residents, passed away at the age of 91. We were so blessed to have known her and we know where she is now...in the arms of GOD. Her funeral and increased medical bills have an impact on our budget. Would you consider a little extra this month? Now, because of the laws of the country, a psychologist comes to our premises twice a month, as well as a nurse who is on call, both paid by Home of Refuge. The costs of food, energy and gas have all increased in the past few weeks.

Thank you for considering Home of Refuge as part of your alms and charitable giving. We can take GOD at His Word and trust Him because He is our Provider. Although there is much change in this world, GOD does not change - **"He is the same yesterday, today and forever!"** We understand the plight of many of you in the states, where we have heard of the high gas prices and rise in grocery costs. This, my Friends, is a sign that our LORD JESUS Christ is right at the door...and until then, THANK YOU for caring!

Tony & Rosa - Home of Refuge - Peru
